

TOACHI MINING INC.

Interim Management's Discussion and Analysis

Quarterly Highlights

Three months ended October 31, 2018

Toachi Mining Inc.

Interim MD&A – Quarterly Highlights Three months ended October 31, 2018

This interim management's discussion and analysis - quarterly highlights ("Interim MD&A") has been prepared based on information available to Toachi Mining Inc. ("Toachi" or the "Company") as at December 20, 2018. This Interim MD&A updates disclosure previously provided in the Company's annual management's discussion and analysis ("Annual MD&A") together with previously-file Interim MD&A's, up to the date of this Interim MD&A and should be read in conjunction with the Company's unaudited condensed consolidated interim financial statements and the related notes as at and for the three months ended October 31, 2018 (the "Interim Consolidated Financial Statements"), the Company's audited consolidated financial statements for the years ended July 31, 2018 and 2017 (the "Annual Consolidated Financial Statements"), and the Company's Annual MD&A for the year ended July 31, 2018. Both the Interim Consolidated Financial Statements and the Annual Consolidated Financial Statements have been prepared by management in accordance with International Financial Reporting Standards ("IFRS") and all amounts are expressed in Canadian dollars unless otherwise noted. The Interim Consolidated Financial Statements have been prepared in accordance with International Standard 34, Interim Financial Reporting. Other information contained in this Interim MD&A has also been prepared by management and is consistent with the data contained in the Interim Consolidated Financial Statements. Additional information relating to the Company may be found under its profile on SEDAR at www.sedar.com or on its website at www.toachimining.com.

MANAGEMENT'S ASSESSMENT OF INTERNAL CONTROL OVER FINANCIAL REPORTING ("ICFR")

Management is responsible for establishing and maintaining adequate internal control over the Company's financial reporting.

As the Company is a Venture Issuer (as defined under *National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings*) ("NI 52-109"), the Company and Management are not required to include representations relating to the evaluation, design, establishment and/or maintenance of disclosure controls and procedures ("DC&P") and/or ICFR, as defined in NI 52-109, nor has it completed such an evaluation. Inherent limitations on the ability of the certifying officers to design and implement on a cost effective bases DC&P and ICFR for the issuer may result in additional risks of quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

CAUTIONARY NOTE

This document may contain or may refer to forward-looking information. Such forward-looking information includes, among other things, statements regarding targets, estimates and/or assumptions in respect of future production, capital costs and future economic, market and other conditions, and is based on current expectations that involve a number of business risks and uncertainties. Factors that could cause actual results to differ materially from any forward-looking statement include, but are not limited to: the grade and recovery of ore which is mined varying from estimates; exploration and development costs varying significantly from estimates; inflation; fluctuations in commodity prices; delays in the development of the any project caused by unavailability of equipment, labour or supplies, climatic conditions or otherwise; termination or revision of any debt financing; failure to raise additional funds required to finance the completion of a project; and other factors. Forward-looking statements are subject to significant risks and uncertainties and other factors that could cause actual results to differ materially from expected results. Readers should not place undue reliance on forward-looking statements. These forward-looking statements are made as of the date hereof and we assume no responsibility to update them or revise them to reflect new events or circumstances, except as required by law.

Toachi Mining Inc.

Interim MD&A – Quarterly Highlights Three months ended October 31, 2018

CORPORATE

Toachi is a minerals exploration company that was incorporated under the Canada Business Corporations Act on October 14, 2010, under the name of 7674279 Canada Inc. On November 26, 2010, the Company changed its name to Ferrum International Mining Inc. and further changed its name on January 28, 2011, to Ferrum Americas Mining Inc. (“Ferrum”). At a Special Meeting of Shareholders held on January 28, 2016, Ferrum received approval from its shareholders to change its name to Toachi Mining Inc. and to a 1-for-5 share consolidation (the “Consolidation”). On March 14, 2016, the Company announced the name-change, Consolidation and change of TSX Venture Exchange (“TSXV”) ticker symbol to “TIM”. On February 20, 2018, the Company’s common shares began trading on the OTCQB Venture Market in the United States under the symbol “TIMGF”.

The Company’s main and registered office is located at 120 Adelaide Street West, Suite 2400, Toronto, Ontario, M5H 1T1. The principal business activity of the Company is the development of the La Plata gold, copper, zinc and silver volcanogenic-massive-sulphide (“VMS”) project in Ecuador.

LIQUIDITY AND CAPITAL RESOURCES

As at October 31, 2018, the Company had cash and cash equivalents of \$829,877 and working capital of \$449,200, compared to cash and cash equivalents of \$1,728,610 and working capital of \$1,494,759, at July 31, 2018. The decrease of cash and cash equivalents of \$898,733 during the three months ended October 31, 2018 is attributed to cash used for operating activities of \$892,373 and cash used in investing activities \$6,360.

Operating activities were affected by adjustments of shares-based compensation of \$24,334, depreciation of \$1,133 and net change in non-cash working capital balance of \$146,826 because of a decrease in amounts receivable and prepaid expenses of \$96,058, an increase in trade payables and accrued liabilities of \$30,237, and an increase in due to related parties of \$20,531.

Investing activities related to the acquisition of equipment of \$6,360.

In order to meet its mid to long-term work commitments and planned exploration expenditures for La Plata, as well as further working capital requirements, the Company will be required to complete further financings (debt and/or equity).

PERFORMANCE

The Company’s operations are not generally subject to seasonal variations. The timing of exploration activities is influenced primarily by the availability of funds and the identification of suitable exploration targets, however, due to either their location or nature the exploration of some properties may be restricted during certain times of the year due to climatic conditions.

Loss for the quarter totalled \$1,064,666, as a result of exploration expenditures totalling \$481,953, as noted in “Projects Update” section below, together with general and administrative expenditures totalling \$391,822; management fees of \$85,579, investor relations of \$2,476, share-based compensation of \$24,334; consulting and professional fees of \$77,041; depreciation of \$1,133; and foreign exchange loss of \$328.

PROJECTS UPDATE

LA PLATA PROJECT

The Company has a binding option agreement with a private Ecuadorean company to earn between 60%-75% in the La Plata gold-rich copper-zinc-silver-lead volcanogenic massive sulphide project located approximately 100 km southwest of Quito, Ecuador. A first-phase exploration program began in August 2016 and as at the date of this Interim MD&A, the Company has completed approximately 17,849 metres of drilling. The majority of this drilling was completed and incorporated into a maiden 43-101 resource estimate which the company announced on September 13, 2017. Please see the following link for more details: http://www.toachimining.com/resources/news/pr_20170913.pdf.

Utilizing a 4 gram gold-equivalent cut-off grade, (AuEq g/t), the maiden resource was composed of Inferred Resources in the North and South Sectors of the La Mina deposit and totaled 1.9 million tonnes (Mt) grading 4.1 g/t gold, 49.4 g/t silver, 3.3 % copper, 4.5% zinc and 0.6% lead. A higher-grade subset of the La Mina resource residing in the South Sector includes 0.8 Mt grading 5.3 g/t gold, 71.1 g/t silver, 3.2% copper, 0.9% lead and 5.5% zinc. Additional information and cut-off grade sensitivity can be found in the September 13, 2017 press release.

Drilling completed subsequent to the resource cut-off date are part of an ongoing Regional Exploration focused on testing the limits of the La Mina deposit and assessing various other regional targets.

Recent Exploration Program Highlights

- Hole CMLP-17-90 intersected 5.00 metres (m) of disseminated sulphide mineralization grading 2.11 grams per tonne (g/t) gold, 6.78 g/t silver, 0.11% copper, 0.57% zinc and 0.15% lead from 86.24 m in the Regional Exploration target at Quebrada Romero Prospect.
- Hole CMLP-17-92 intersected 5.11 m grading 2.11 g/t gold, 26.17 g/t silver, 0.03% copper, 0.66% zinc and 0.39% lead from 388.9 m in the La Mina South zone.
- Hole CMLP-17-93 intersected 13.91 m grading 3.51 g/t gold, 64.24 g/t silver, 0.59% copper, 4.11% zinc and 0.85% lead from 339.43 m in the La Mina South zone, and has confirmed that the deposit extends to the East and with depth.
- A metallurgical optimization program is continuing at SGS Lakefield Research Ltd. in Canada, under the supervision of Dr. Simon Meik. Samples were sent to SGS in November with additional results expected in the coming months.
- Geophysical down-hole TEM surveys were completed in September on a 19 selected La Mina and Regional Exploration drill holes. Total surveyed core length was approximately 6,340 m.
- Toachi conducted a gravity survey on 2603 stations across the La Plata concessions with the work completed in mid-October. The Company collected gravity data which identified nine new, untested exploration targets at its La Plata.
- The gravity survey covered the La Mina deposit as well as the Central and North zone of the La Plata concessions. The processing of the geophysical surveys was recently completed with results press released on February 8, 2018 http://www.toachimining.com/resources/news/pr_20180208.pdf
- In reviewing the survey results, the Company identified 9 priority targets comprising of coincident gravity and geochemical anomalies. These targets also correlate well with historical mapping and trenching results. As the newly defined gravity anomalies are analogous to the La Mina deposit signature, Toachi intends to follow-up on these targets in 2018.
- Local site staff have already commenced surface exploration and mapping on these targets, most notably Lisica and Lucho. Initial work has confirmed favourable stratigraphy along with extensive pyrite mineralization within mafic volcanics. Additionally, sphalerite mineralisation was observed in one sampled outcrop.

Toachi Mining Inc.

Interim MD&A – Quarterly Highlights Three months ended October 31, 2018

Phil Fox, MAIG, a Qualified Person as defined by NI 43-101, has reviewed and approved the contents of this Interim MD&A.

During the three months ended October 31, 2018, the Company incurred \$481,953 in exploration expenditures for the project. Details of the expenditures are as follows:

	Three months ended October 31, 2018
	\$
Administrative	72,656
Assays	29,275
Camp costs	69,314
Community costs	145,636
Consulting	2,906
Drilling	456
General	27,960
Geology and geophysics	56,227
Legal and governmental	32,215
Travel	45,308
Total	481,953

La Plata option payment

Subsequent to October 31, 2018, pursuant to the La Plata project Option Agreement, the Company made a cash payment of US\$350,000 to the optionor (see “Subsequent Events” section).

OUTSTANDING SECURITIES

As at the date of this Interim MD&A, the Company’s capital structure is as follows:

Security	Number
Common shares	81,166,435
Options	5,587,000
Warrants	10,000,000
Compensation warrants	558,750

COMMITMENTS

The Company has exploration work commitments and option payments to be made over the next 2 years, as detailed in note 7(a) of the Interim Consolidated Financial Statements.

Toachi Mining Inc.

Interim MD&A – Quarterly Highlights Three months ended October 31, 2018

RELATED PARTY TRANSACTIONS AND BALANCES

The Interim Consolidated Financial Statements include the following balances and transactions with directors and/or officers of the Company and/or entities related to or controlled by them:

	Three Months Ended	
	October 31, 2018	October 31, 2017
	\$	\$
Management fees charged by an entity controlled by the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO")	85,579	75,000
Directors' fees	15,000	15,000
Share-based compensation for the Company's directors, CEO and CFO	19,925	336,000
Office rent	3,600	19,830
Total for period	124,104	445,830

As at October 31, 2018, the balance of \$79,215 (July 31, 2018 - \$48,554) is due to entities controlled by the Company's CEO and CFO for management fees and reimbursable travel expenses and the balance of \$2,194 (July 31, 2018 - \$12,324) is due to directors of the Company for their directors' fees and reimbursable travel expenses. The associated expenses have been reflected in the table above while any balances due have been reflected in Trade Payables and Accrued Liabilities

SUBSEQUENT EVENTS

Subsequent to October 31, 2018, pursuant to the La Plata project Option Agreement (see note 7(a) of the Interim Consolidated Financial Statements), the Company made a cash payment of US\$350,000 to the optionor.

On November 22, 2018, 592,560 underwriting warrants expired unexercised.
