

# Toachi files technical report for flagship Ecuador project

METALS & MINING | INDUSTRIAL METALS & MINERALS

Toachi Mining Inc. ([TSX: V.TIM](#), [RBNDE](#), [Forum](#)) said Friday it has filed a 43-101 technical report for its flagship La Plata volcanogenic massive sulphide Project in Ecuador.

The La Plata project consists of two mining concessions covering 2,300 hectares and located 85 kilometres southwest of the capital city of Quito.

Toachi said the update supports the disclosure made by the company in its news release dated September 13, 2017.

More information can be found [here](#).

[The company was in the news recently](#) when it announced a maiden NI 43-101 resource estimate for the La Plata gold-rich VMS deposit.
